

Exhibition “CranExpo” is a Professional exposition that is graded as industrial forum in Russian Federation CIS countries and in countries in Eastern Europe. It is an Unique opportunity to explore the potential of the industry market, to increase direct sales, to present new product or trade mark, to increase brand recognition and to strengthen the image of your company. It is organized under the patronage of the Department of science and industry policies at the government of Moscow. It is awarded the sign of the RUEF, which certifies of coherence of the event to the standards set forth for the exhibition projects.

Speed-O-Controls Group of Companies have taken part in last edition of the CranExpo 2012 Exhibition that was held last April from the 18th to 20th in Moscow – Russia. This was the second time SOC has taken part in this exhibition last being in 2011 as well.

In collaboration with the Russian Company Knam & sister concern ITOWA from Spain, SOC has been able to showcase all their products and marked a strong presence in Russia through this exhibition.

On the stand SOC has shown its range of Insulated Conductor Bar Systems (Safeline Range), Limit Switches, Thruster Brakes, Master Controllers, Pendant Stations, Radio Remote Control Systems from ITOWA Spain.
